LICENSING & REVIEW

This is a decision on the petition filed on June 28, 2000 for retroactive foreign filing license. At the time of the filing, the declaration of Joe Liebeschuetz states that the application was filed in error in that he had overlooked the need for a license due to the pressure of time. This conclusion is supported by the facts recited in the declaration. Also given the short time frame in filing of the instant application and the filing date in the various countries the petition is considered to be diligently.

In view of the above facts and statements, it has been determined that a retroactive license for foreign filing under 35 U.S.C. 184 be granted with respect to the filing(s) listed below. The petition complies with 37 C.F.R. 5.25 in that there is an adequate showing that the subject matter in question was not under secrecy order, that the license was diligently sought, and that the material was filed abroad without the required license under 37 C.F.R. 5.11 through error and without deceptive intent.
